

## CAPABILITY STATEMENT

### ELECTRICAL CONTRACTING

KT&T is an established distributor and installer of commercial electrical products. With an extensive catalog of products and experience in installation, KT&T can design, build, and finish any Commercial or Industrial Project.

### PROJECT MANAGEMENT

The KT&T team is dedicated to making a project run smoothly, on time and on budget. Kt&T has extensive management experience and an understanding of various commercial and industrial industries.

### SUSTAINABILITY/BUILDING COMMISSIONING

The U.S. Dept. of Energy has determined that commissioning uncovers building deficiencies and is one of the most cost-effective ways to improve commercial building energy efficiency. KT&T can review your new or existing building to ensure an energy efficient, potentially carbon-free environment. We can meet your sustainability goals through building controls, energy efficient lighting, heat pumps, VDF's, Transformers and EV charging stations.

### ENVIRONMENTAL SERVICES

In addition to energy assessments, KT&T has developed solutions for large or small quantities of lighting and electronic waste. Its recycling programs are designed to allow for safe and compliant recycling of "Universal Waste". KT&T offerings include recycling for Lamp, Ballast, and Battery.

### WHOLESALE SUPPLIES & DISTRIBUTION

Reseller of over 1.5 million MRO (Maintenance, Repair, and Operational) supplies
